

# Client Meeting 3(27th January 2024)

Client gave us a new software just like Label Studio .

The software is <https://app.cvat.ai/>

We were asked to do an comparison between the 2 softwares . We were asked to make an excel sheet by client .

The client discussed about the excel sheet that we guys made .

Comparisons are as follows:-

1. Cloud Storage and Models : These tabs on cvat tool to be studied by Sreeja and Vaishnavi
2. Projects and Task related part : To be done by Karan and Sanchit

Client gave us work to do as follows :-

- Enhance the filter and sort option of label studio.
- Make the Label studio more attractive and user friendly.
- Read the backend of code and give an entire walk through of the backend codebase.
- Make a feature to import from google drive .
